

LC 100 SV 100 Kit- Lovibond Colour

Stock Code: 401120

The Lovibond® SV 100 holder is designed to support the LC 100 at an ergonomic viewing angle to enable the measurements in Lovibond® optical cells. A secure cap is provided to cover the sample, protecting it from any excessive ambient light, enabling quick yet accurate readings.

The kit is supplied with the LC 100 Spectrocolorimeter, the SV 100 stand and 10 ready-to-use Lovibond® 10mm cells, enabling immediate access to the easy colour measurement of food, powders, cosmetics and pastes.
